

# Teyzix Core Internship

## Task Information

- **Task Title:** TEYZIX CORE Internship Portal (Full Stack System)
- **Task ID:** FS-2
- **Domain:** Full-Stack Web Development
- **Difficulty Level:** Beginner to Intermediate
- **Assigned Date:** 12th May 2026
- **Submission Deadline:** 20th May 2026

## Objective

Develop a functional internship portal for TEYZIX CORE where users can view internships, apply online, and submit their details through a working full-stack system.

## Problem Statement

TEYZIX CORE wants a simple but functional internship portal where students can:

- view available internships
- submit applications
- store data in database
- and admin can view submissions

The system should be clean, functional, and easy to use.

## Task Requirements

### Frontend

- Homepage with TEYZIX CORE branding
- Internship listing page
- Application form page
- Contact page
- Responsive design

## **Backend**

- API for internship applications
- Store user data in database
- View all applications (admin endpoint)
- Basic validation

## **Database**

- Store:
  - Name
  - Email
  - Phone
  - Selected domain
  - Message/cover letter

## **Technologies Allowed**

- HTML/CSS/JS OR React
- Node.js / Express OR Firebase / Supabase
- Any database (MongoDB preferred)

## **Deliverables**

- Live website link
- GitHub repository
- README file

## **Evaluation**

- Functionality: 40%
- UI/UX: 25%
- Code quality: 20%
- Responsiveness: 15%
